**An Invitation to Computer Science: C++ Version, 4th Edition** By G. Michael Schneider, Judith Gersting

This new edition of Invitation to Computer Science follows the breadth-first guidelines recommended by CC2001 to teach computer science topics from the ground up. The authors begin by showing that computer science is the study of algorithms, the central theme of the book, then move up the next five levels of the hierarchy: hardware, virtual machine, software, applications, and ethics. Utilizing rich pedagogy and a consistently engaging writing style, Schneider and Gersting provide students with a solid grounding in theoretical concepts, as well as important applications of computing and information technology. A laboratory manual and accompanying software is available as an optional bundle with this text.

## **Editorial Review**

### **About the Author**

G. Michael Schneider is Professor Emeritus of Mathematics and Computer Science at Macalester College in St. Paul, Minnesota. He also served as a Visiting Professor of Computer Science at Columbia University in New York. His professional interests include parallel processing, computer networks, programming methodology, and computer science education. He has written many successful textbooks on software development, data structures, computer organization, and a breadth-first overview of computer science. Dr. Schneider was a member of the committee that authored the ACM/IEEE Computing Curriculum 2001. He has received Fulbright Grants to teach computer science and applied mathematics in Mauritius, Malaysia, Nepal, and Mongolia. He received his B.S. from Michigan University and his M.Sc. and Ph.D. in computer science from the University of Wisconsin-Madison.

Judith Gersting is a Professor Emeritus of Computer Science at the University of Hawaii at Hilo and at Indiana University-Purdue University at Indianapolis, where she now teaches part-time. An experienced educator and respected professional, Dr. Gersting has written a number of leading college textbooks. Her areas of specialization include theoretical computer science and computer science education. She earned her B.S. from Stetson University and her M.A. and Ph.D. in mathematics from Arizona State University.

## **Users Review**

### **From reader reviews:**

#### **Paula Mendoza:**

What do you think of book? It is just for students as they are still students or the item for all people in the world, the particular best subject for that? Just simply you can be answered for that concern above. Every person has diverse personality and hobby for every other. Don't to be obligated someone or something that they don't desire do that. You must know how great and also important the book An Invitation to Computer Science: C++ Version, 4th Edition. All type of book are you able to see on many options. You can look for the internet solutions or other social media.

#### **Nancy Hartsell:**

The knowledge that you get from An Invitation to Computer Science: C++ Version, 4th Edition will be the more deep you rooting the information that hide into the words the more you get interested in reading it. It doesn't mean that this book is hard to comprehend but An Invitation to Computer Science: C++ Version, 4th Edition giving you buzz feeling of reading. The writer conveys their point in selected way that can be understood simply by anyone who read the item because the author of this publication is well-known enough. This specific book also makes your own personal vocabulary increase well. So it is easy to understand then can go along, both in printed or e-book style are available. We advise you for having that An Invitation to Computer Science: C++ Version, 4th Edition instantly.

**Gary Copeland:**

Does one one of the book lovers? If so, do you ever feeling doubt if you find yourself in the book store? Try to pick one book that you find out the inside because don't determine book by its handle may doesn't work at this point is difficult job because you are afraid that the inside maybe not because fantastic as in the outside search likes. Maybe you answer may be An Invitation to Computer Science: C++ Version, 4th Edition why because the fantastic cover that make you consider in regards to the content will not disappoint anyone. The inside or content is actually fantastic as the outside or cover. Your reading sixth sense will directly direct you to pick up this book.

**Jessica Duncan:**

Book is one of source of expertise. We can add our expertise from it. Not only for students but also native or citizen need book to know the upgrade information of year to be able to year. As we know those books have many advantages. Beside many of us add our knowledge, also can bring us to around the world. By book An Invitation to Computer Science: C++ Version, 4th Edition we can take more advantage. Don't one to be creative people? Being creative person must want to read a book. Only choose the best book that suitable with your aim. Don't end up being doubt to change your life at this book An Invitation to Computer Science: C++ Version, 4th Edition. You can more inviting than now.
