Connect 1-Semester Access Card for Chemistry: The Molecular Nature of Matter and Change By Martin Silberberg, Patricia Amateis

McGraw-Hill Connect® is a subscription-based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Your subscription to Connect includes the following:

- SmartBook® - an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content.
- Access to your instructor's homework assignments, quizzes, syllabus, notes, reminders, and other important files for the course.
- Progress dashboards that quickly show how you are performing on your assignments and tips for improvement.
- The option to purchase (for a small fee) a print version of the book. This binder-ready, loose-leaf version includes free shipping.
- LearnSmart® Prep is a super adaptive product that quickly and efficiently prepares students for a college level course.

Complete system requirements to use Connect can be found here:

Editorial Review

About the Author

Patricia Amateis graduated with a B.S. in Chemistry Education from Concord University in West Virginia and a PhD in Analytical Chemistry from Virginia Tech. She has been on the faculty of the Chemistry Department at Virginia Tech for 28 years, teaching General Chemistry and Analytical Chemistry. For the past 13 years, she has served as Director of General Chemistry, responsible for the oversight of both the lecture and lab portions of the large General Chemistry program. She has taught thousands of students during her career and has been awarded the University Sporn Award for Introductory Teaching, the Alumni Teaching Award, and the William E. Wine Award for a history of university teaching excellence. She and her husband live in Blacksburg, Virginia and are the parents of three adult children. In her free time, she enjoys biking, hiking, competing in the occasional sprint triathlon, and playing the double second in Panjammers, Blacksburg's steel drum band.

Martin S. Silberberg received his B.S. in chemistry from the City University of New York in 1966 and his Ph.D. in chemistry from the University of Oklahoma, in 1971. He then accepted a research position at the Albert Einstein College of Medicine, where he studied the chemical nature of neurotransmission and Parkinson's disease. In 1977, Dr. Silberberg joined the faculty of Simon's Rock College of Bard (Massachusetts), a liberal arts college known for its excellence in teaching small classes of highly motivated students. As Head of the Natural Sciences Major and Director of Premedical Studies, he taught courses in general chemistry, organic chemistry, biochemistry, and nonmajors chemistry. The close student contact afforded him insights into how students learn chemistry, where they have difficulties, and what strategies can help them succeed. In 1983, Dr. Silberberg decided to apply these insights in a broader context and established a text writing and editing company. Before writing his own text, he worked on chemistry, biochemistry, and physics texts for several major college publishers. He resides with his wife and child in Massachusetts. For relaxation, he cooks, sings, and walks in the woods.

Users Review

From reader reviews:

Patrina Eaton:

Do you certainly one of people who can't read satisfying if the sentence chained inside the straightway, hold on guys that aren't like that. This Connect 1-Semester Access Card for Chemistry: The Molecular Nature of Matter and Change book is readable simply by you who hate the straight word style. You will find the facts here are arrange for enjoyable looking at experience without leaving also decrease the knowledge that want to provide to you. The writer of Connect 1-Semester Access Card for Chemistry: The Molecular Nature of Matter and Change content conveys the idea easily to understand by most people. The printed and e-book are not different in the written content but it just different in the form of it. So , do you nonetheless thinking Connect 1-Semester Access Card for Chemistry: The Molecular Nature of Matter and Change is not loveable to be your top list reading book?

George Clark:

The book Connect 1-Semester Access Card for Chemistry: The Molecular Nature of Matter and Change will bring someone to the new experience of reading a book. The author style to spell out the idea is very unique. When you try to find new book to study, this book very acceptable to you. The book Connect 1-Semester Access Card for Chemistry: The Molecular Nature of Matter and Change is much recommended to you to learn. You can also get the e-book through the official web site, so you can quicker to read the book.

Rebecca Stark:

Spent a free time and energy to be fun activity to try and do! A lot of people spent their down time with their family, or all their friends. Usually they doing activity like watching television, gonna beach, or picnic in the park. They actually doing same every week. Do you feel it? Do you wish to something different to fill your current free time/ holiday? May be reading a book could be option to fill your free time/ holiday. The first thing that you'll ask may be what kinds of book that you should read. If you want to attempt look for book, may be the guide untitled Connect 1-Semester Access Card for Chemistry: The Molecular Nature of Matter and Change can be fine book to read. May be it could be best activity to you.

Tom Salgado:

Book is one of source of expertise. We can add our knowledge from it. Not only for students and also native or citizen want book to know the update information of year in order to year. As we know those publications have many advantages. Beside all of us add our knowledge, could also bring us to around the world. Through the book Connect 1-Semester Access Card for Chemistry: The Molecular Nature of Matter and Change we can take more advantage. Don't you to be creative people? To be creative person must like to read a book. Just choose the best book that ideal with your aim. Don't always be doubt to change your life at this book Connect 1-Semester Access Card for Chemistry: The Molecular Nature of Matter and Change. You can more attractive than now.
