The Relative Native: Essays on Indigenous Conceptual Worlds (Hau - Special Collections in Ethnographic Theory) By Eduardo Viveiros de Castro

This volume is the first to collect the most influential essays and lectures of Eduardo Viveiros de Castro. Published in a wide variety of venues, and often difficult to find, the pieces are brought together here for the first time in a one major volume, which includes his momentous 1998 Cambridge University Lectures, “Cosmological Perspectivism in Amazonia and Elsewhere.”

Rounded out with new English translations of a number of previously unpublished works, the resulting book is a wide-ranging portrait of one of the towering figures of contemporary thought—philosopher, anthropologist, ethnographer, ethnologist, and more. With a new afterword by Roy Wagner elucidating Viveiros de Castro’s work, influence, and legacy, *The Relative Native* will be required reading, further cementing Viveiros de Castro’s position at the center of contemporary anthropological inquiry.
