Clinical Avian Medicine Volumes 1 & 2 By Gregg J. Harrison & Theresa Lightfoot

Greg Harrison, DVM, Dipl ABVP-Avian, Dipl ECAMS and Teresa Lightfoot, DVM, Dipl ABVP-Avian, have compiled the expertise and experience of 50 international contributing authors (and 50 reviewers) to produce an extraordinary two-volume reference, with over 1000 pages of text and over 1300 color images, for veterinarians and other avian health professionals. The purpose of the book Clinical Avian Medicine is to provide some highlights of emerging thoughts, techniques and procedures that are currently being assimilated into avian practice. The book covers the following subjects: Fresh perspectives on common clinical disorders and practical solutions Current scientific data relevant to clinical avian practice Practical, useful diagnostic support in physical examination, nutritional evaluation, hematology, biochemistries and endoscopy Breakthrough contributions in integrative medicine, wellness programs, preventive medicine and screening and low-risk pest control Avian behavior and behavior modification Broad-based referenced formulary and pain management Step-by-step surgical procedures and techniques
