**Games Wizards Play (Young Wizards Series) By Diane Duane**

Every eleven years, Earth's senior wizards hold the Invitational: an intensive three-week event where the planet's newest, sharpest young wizards show off their best and hottest spells. Wizardly partners Kit Rodriguez and Nita Callahan, and Nita's sister, former wizard-prodigy Dairine Callahan, are drafted in to mentor two brilliant and difficult cases: for Nita and Kit, there's Penn Shao-Feng, a would-be sun technician with a dangerous new take on managing solar weather; and for Dairine, there's shy young Mehrnaz Farrahi, an Iranian wizard-girl trying to specialize in defusing earthquakes while struggling with a toxic extended wizardly family that demands she perform to their expectations.

Together they're plunged into a whirlwind of cutthroat competition and ruthless judging. Penn's egotistical attitude toward his mentors complicates matters as the pair tries to negotiate their burgeoning romance. Meanwhile, Dairine struggles to stabilize her hero-worshipping, insecure protégée against the interference of powerful relatives using her to further their own tangled agendas. When both candidates make it through to the finals stage on the dark side of the Moon, they and their mentors are flung into a final conflict that could change the solar system for the better . . . or damage Earth beyond even wizardly repair.

### Editorial Review

From School Library Journal

Gr 7 Up—In this 10th installment of the "Young Wizards" series (HMH), Kit, Nita, Dairine, and their wizard friends return for more interplanetary adventures. Every 11 years, Earth's wizards hold the Invitational, a prestigious competition in which young wizards compete to craft and execute the perfect spell. The three young protagonists are each invited to mentor a young wizard in the competition, and each ends up facing unique challenges. Among them, Nita has a complicated vision that could change everything, and through a series of events, the stakes quickly become much higher than winning a contest. The story is slow to develop and heavily hinges on knowledge obtained in previous installments. Everything comes together in the end, though, to create a well-thought-out climax, with a satisfying resolution. Recommend this series to young teens who devour books about magic and wizards. VERDICT This is a solid addition to the series; purchase where there are fans of the previous volumes or kids looking for "Harry Potter" read-alikes.—Candyce Pruitt-Goddard, Sno-Isle Libraries, Marysville, WA
