**Cook's Science: How to Unlock Flavor in 50 of our Favorite Ingredients** By The Editors at Cook's Illustrated

In *Cook's Science*, the all-new companion to the New York Times-bestselling *The Science of Good Cooking*, America's Test Kitchen deep dives into the surprising science behind 50 of our favorite ingredients--and uses that science to make them taste their best.

From the editors of Cook's Illustrated, and the best-selling *The Science of Good Cooking*, comes an all-new companion book highlighting 50 of our favorite ingredients and the (sometimes surprising) science behind them: *Cook's Science*. Each chapter explains the science behind one of the 50 ingredients in a short, informative essay--topics ranging from pork shoulder to apples to quinoa to dark chocolate--before moving onto an original (and sometimes quirky) experiment, performed in our test kitchen and designed to show how the science works. The book includes 50 dynamic, full-page color illustrations, giving in-depth looks at individual ingredients, "family trees" of ingredients, and cooking techniques like sous vide, dehydrating, and fermentation. The 400+ foolproof recipes included take the science into the kitchen, and range from crispy fried chicken wings to meaty-tasting vegetarian chili, coconut layer cake to strawberry rhubarb pie.
