Her Perfect Mate (X-OPS Series Book 1) By Paige Tyler

"Absolutely perfect. One of the best books I've read in years. I definitely want more of Paige Tyler's shifters." -Kate Douglas, bestselling author of the Wolf Tales series

He's a High-Octane Special Ops Pro

When Special Forces Captain Landon Donovan is pulled from an op in Afghanistan, he is surprised to discover he's been hand-picked for a special assignment with the Department of Covert Operations (DCO), a secret division he's never heard of. Terrorists are kidnapping biologists and he and his partner have to stop them. But his new partner is a beautiful, sexy woman who looks like she couldn't hurt a fly—never mind take down a terrorist.

She's Not Your Average Covert Operative

Ivy Halliwell is no kitten. She's a feline shifter, and more dangerous than she looks. She's worked with a string of hotheaded military guys who've underestimated her special skills in the past. But when she's partnered with special agent Donovan, a man sexy enough to make any girl purr, things begin to heat up...

Editorial Review

From [Booklist](#)

As Tyler launches the X-Ops series, Special Forces captain Landon Donovan is abruptly assigned to a politically controversial, secret Homeland Security unit that pairs humans with shifters, part-animal counterparts carrying natural genetic mutations. His new and gorgeous partner, Ivy Halliwell, is part cat, has lost two previous partners and is now known as "Poison Ivy." Despite this, she and Landon not only work well together but give in to a fierce sexual attraction and fall in love. Before this can complicate their work lives, though, they are sent to catch an evil German scientist who is kidnapping biologists. Ivy is captured during their raid, and Donovan calls on his former special ops team and another shifter in their unit to help rescue her and kill the bad guys. But two of those escape with samples of her blood, paving the way for the next X-Ops installment. This is an action-packed, sensual genre-blend of military and paranormal romance with appeal for readers of both. The explicit sex scenes, while limited in number, show the influence of erotica on both subgenres. --Mary K. Chelton
