Oral Rehabilitation: A Case-Based Approach From Wiley-Blackwell

This book provides its readers with a structured approach to decision-making and case management in oral rehabilitation. It is built around actual patient cases from simple prosthodontics to complex full-mouth reconstructions, demonstrating a formal process by which a diagnosis and treatment plan is reached. Grounded firmly in evidence-based principles, the book also includes a chapter on literature searching in dentistry, which is critical for acquiring a knowledge-base for informed decisions in clinical treatment.

Featuring an approach to prosthodontics and oral rehabilitation that is both instructional and practical, Oral Rehabilitation: A Case-Based Approach will help clinicians to develop the necessary skills to make consistent, evidence-based clinical decisions.

KEY FEATURES

- Presents a case-based process showing how diagnosis and treatment is achieved
- Covers a range of clinical scenarios from simple to complex presentations
- Illustrates each case fully, with stages documented by colour photographs
- Emphasises inter-disciplinary management in prosthodontics
- Accompanied by a website containing illustrative video clips

Editorial Review

Review

“It is therefore reassuring to find a book of this calibre. It underscores old principles and values as it seeks to reconcile erudition with prudence, scrupulous analysis with much wisdom.” (*British Dental Association News*, 1 November 2012)

“This is a well presented book that looks at treatment planning and management of various restorative cases, from single tooth restorations to full mouth rehabilitation . . . Overall, this is a well written, Illustrated and referenced textbook, to critically build one's knowledge-base and inform decisions on clinical treatment.” (*British Dental Journal*, 27 October 2012)

This Oral Rehabilitation: A Case-Based Approach is brand new way for you who has interest to look for some information mainly because it relief your hunger associated with. Getting deeper you in it getting knowledge more you know or perhaps you who still having bit of digest in reading this Oral Rehabilitation: A Case-Based Approach can be the light food for you because the information inside that book is easy to get simply by anyone. These books produce itself in the form and that is reachable by anyone, that's why I mean in the e-book application form. People who think that in book form make them feel sleepy even dizzy this book is the answer. So there is not any in reading a book especially this one. You can find what you are looking for. It should be here for anyone. So , don't miss it! Just read this e-book variety for your better life as well as knowledge.

Earl Parker:

As a student exactly feel bored to help reading. If their teacher requested them to go to the library as well as to make summary for some publication, they are complained. Just small students that has reading's internal or real their interest. They just do what the instructor want, like asked to go to the library. They go to generally there but nothing reading seriously. Any students feel that examining is not important, boring and also can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore this Oral Rehabilitation: A Case-Based Approach can make you really feel more interested to read.
