Editorial Review

Review

"George Watson, master teacher has done it again! He has combined sound pedagogy in an innovative and challenging way that will appeal to students and teachers alike."

— Carrol Loewen, former special education teacher, principal, and director of education, Saskatchewan, Canada

"All teachers with middle years science assignments need a copy of this fantastic collection of 'high interest' learning activities. George Watson's twenty-eight years of diverse teaching experience is the great strength of this user-friendly resource." — Lyndon Heinemann, vice principal, North Battleford Comprehensive High School, North Battleford, Saskatchewan, Canada

"George Watson, an enthusiastic and inspirational classroom teacher with many years experience, has created and compiled this practical resource filled with a wide variety of challenging and motivating activities that no Science teacher should be without."

— Brian Gardiner, assistant principal, Connaught School, North Battleford

"George Watson, an enthusiastic educator, combines extensive research and experience in the creation of this most useful teaching tool. It is a resource designed to provide teachers with a variety of easy-to-use activities and suggestions that are sure to enhance and enrich the science curriculum."

— Lyle Brenna, principal, Bready Elementary School

"A most impressive collection of challenges for every kind of student. A true treasure for the teacher who believes that Science can be integrated with other subjects. Learning is Fun."

— Mr. Merv. Grosse, director of education, North Battleford, Saskatchewan, Canada

About the Author

George Watson has taught almost every elementary and junior high school subject during his 28 years of teaching. He most recently taught special education classes for grades 8 and 9 at Alexander Junior High School in the North Battleford (Saskatchewan) Public School Division. Mr. Watson also conducts inservice programs for teachers and parent-teacher organizations and speaks at local conventions. He is the author of *Teacher Smart: 125 Tested Techniques for Classroom Management and Control* and *The Classroom Discipline Problem Solver*, both from Jossey-Bass.

Users Review

From reader reviews:

Thomas Carroll:

As people who live in the actual modest era should be change about what going on or data even knowledge to make these individuals keep up with the era that is always change and progress. Some of you maybe can update themselves by reading books. It is a good choice for you personally but the problems coming to anyone is you don't know what type you should start with. This 190 Ready-to-Use Activities that Make Science Fun is our recommendation to cause you to keep up with the world. Why, because this book serves what you want and want in this era.

James Robinson:

The book 190 Ready-to-Use Activities that Make Science Fun will bring you to the new experience of reading the book. The author style to describe the idea is very unique. Should you try to find new book to study, this book very acceptable to you. The book 190 Ready-to-Use Activities that Make Science Fun is much recommended to you to read. You can also get the e-book from official web site, so you can quickly to read the book.

Callie Allen:

In this age globalization it is important to someone to receive information. The information will make someone to understand the condition of the world. The health of the world makes the information simpler to share. You can find a lot of references to get information example: internet, newspapers, book, and soon. You can see that now, a lot of publisher which print many kinds of book. The actual book that recommended to your account is 190 Ready-to-Use Activities that Make Science Fun this publication consist a lot of the information from the condition of this world now. This book was represented how do the world has grown up. The words styles that writer require to explain it is easy to understand. The writer made some research when he makes this book. Honestly, that is why this book suitable all of you.

Jose Crawford:

Reading a reserve make you to get more knowledge as a result. You can take knowledge and information coming from a book. Book is composed or printed or created from each source which filled update of news. On this modern era like now, many ways to get information are available for you actually. From media social just like newspaper, magazines, science reserve, encyclopedia, reference book, novel and comic. You can add your understanding by that book. Are you hip to spend your spare time to open your book? Or just searching for the 190 Ready-to-Use Activities that Make Science Fun when you required it?
