For twenty years Melody Beattie has been writing lucidly about codependency--the pattern of trying to control or change someone who repeatedly makes trouble for themselves and others, and who usually is manipulating and controlling others as well. The problem is often part of an addictive or depressive syndrome or both (which the author understands well from her own experience); the solution she offers is to work extra hard at clarifying each person's boundaries, keeping everyone's responsibilities separated, and becoming obsessive about looking after one's own interests in the face of demands to do otherwise. Christina Moore's elegant diction stirs in a measure of attention-getting gravitas to this weighty mixture of classic relationship advice.
