Swords into Plowshares By Ron Paul

Twelve-term US Congressman and three-time presidential candidate Ron Paul reveals an intensely personal side as he reflects on growing up during World War II. The book also provides a powerful critique of the corruption and corrosion produced by a 20th century full of war and killing. Ever the optimist, however, Paul leaves behind the ashes of a 20th century of war to finish with a stirring, liberating view of the future we may choose if we turn from war and violence.
