Deconstructing the OSCE: Strategies for OSCE Success (Oxford Specialty Training) From OUP Oxford

The OSCE forms the practical part of educational and professional medical examinations and is often challenging and expensive. Deconstructing the OSCE takes a fresh approach to passing the OSCE, teaching readers how to tackle the examination in a new way. This book doesn't provide readers with checklists of information needed for specific OSCE stations; instead it will help you to develop key strategies and skills that will enable success in any OSCE regardless of specialty or level.

Packed full of advice, practical tips, real-life examples, and exercises, this book will provide you with skills to prepare for effective OSCE study and strategies to overcome common hurdles and psychological baggage. It also explores how to overcome past failure in the OSCE by overhauling your previous study routines and suggesting new strategies for the road ahead.

Ideal for trainee doctors sitting OSCEs at all levels, medical students, allied medical practitioners, nurses, and doctors from overseas; Deconstructing the OSCE is full of practical advice to increase candidates' confidence and improve the chance of success in any OSCE scenario.

Editorial Review

Review

Coping with the fear of, or, actual exam failure is always the footnote of any exam preperation books, never giving it the recognition it deserves. Harding has tackled this taboo, by producing a straightforward, highly readable plan on how not to be subsumed by these feelings when preparing for OSCE examination...I can't recommend this book enough to trainees, tutors, training directors, and revision course organisers. * Amazon *

About the Author

Duncan Harding, *Clinical Lecturer in Child and Adolescent Psychiatry, Institute of Psychiatry, Kings College London, UK*

Duncan Harding is a Clinical Lecturer in Child and Adolescent Psychiatry at the Institute of Psychiatry in London. He is a trained forensic psychiatrist with a research interest in psychopathy and conduct disorder, and has published extensively in the field of motoneurone degeneration. His teaching focuses on the OSCE: he facilitates OSCE workshops for trainees and medical students; delivers lectures on the MRCPsych teaching course for trainees at the Institute of Psychiatry; and is currently designing a strategic generic skills-based OSCE course for the UK and overseas
