### Raise Your Voice By Jaime J. Vendera

Raise Your Voice, by glass shattering vocal coach Jaime Vendera, is considered by many to be the "Singer's Bible." This groundbreaking vocal training manual features Jaime's truly unique approach to vocal technique and voice training which is keeping famous singers on the road, performing night after night. Through Jaime's Vocal Stress Release program and his the Isolation Method you too will discover how easy it is to extend your vocal range and increase your vocal power beyond what you have ever imagined possible. As well, you'll discover chapters covering vocal health, the singer's diet, physical and vocal exercises, stage & studio tips, as well as advanced rock singing techniques such as how to scream or add grit. Raise Your Voice contains over 150 pictures and illustrations, over 200 Useful Tips from the author, tips from over twenty of the world's top rock singers and vocal instructors, 72 audio examples and 10+ hours of audio/video instruction through the Raise Your Voice "Member's Section" though jaimevendera.com. Membership is included via password within the book. If you want to extend your vocal range, enhance your tone, improve vocal stamina, increase vocal power, boost vocal health, master advanced techniques like grit and the whistle register, conquer stage fright, and become a great performing/recording artist, Raise Your Voice is the answer!

### Editorial Review

#### Review

Excellent book! I can see you've done your homework! I was especially impressed with the "Vocal Health" section. -- *Tony Harnell, lead vocalist-TNT, WestWorld, StarBreaker Band*

Jaime is one of the easiest guys to work with! For his vocal help, I dub him an honorary MythBuster. -- *Adam Savage, co-host, MythBusters*

Jaime is the real deal and can seriously help you to become a rock singer, so check him out! -- *Phil Tayler, lead vocalist of Future Leaders of the World*

Out of the 50+ vocal instruction books I've purchased, "Raise Your Voice" replaces them all! -- *Dallan Beck, author of Recording Vocals, Recording Drums, and Recording Acoustic Guitar*

Your theory and knowledge of the voice is overwhelming! I will find all of this very invaluable. Thank you! -- *James LaBrie, lead vocalist-Dream Theater*

#### From the Author

Raise Your Voice truly is my life's passion. I've taught countless singers the methods within the pages of my books, from beginning student to rock star. Time and time again, I've seen range, power, and quality increase. You can reach your vocal potential by studying the techniques laid out in this book, as well as following along with the 10+ hours of instructional audio & video that come with the Raise Your Voice. Good luck!

#### From the Inside Flap

Since the original ebook release of Raise Your Voice, I have received hundreds of emails from around the world concerning my approach to vocal technique. The biggest issues have been centered on the fact that The Voice Connection is a rock vocals based website. If you are one of the singers who are wondering if Raise Your Voice will work for all styles, ask no more! I present you with this simple answer; correct technique is correct technique. The techniques presented in this book are the most powerful tools I have found for strengthening the voice. This system will work for any style! If your goal is to become an amazing country vocalist like Wynona Judd, or Vince Gill, this technique will work for you! If your goal is to be the next Luther Vandross, or Mariah Carey...well, I can't make you sound like Luther or Mariah, but I can show you how to develop an amazing vocal instrument and present you with the tools needed for vocal success. If you want to be the next American Idol, I can give you the keys to unlock your voice potential. If all you want to do is be the vocalist in a Soundgarden or Led Zeppelin cover band, then I'll show you how to develop the strength and stamina to tackle songs by Chris Cornell and Robert Plant. No matter what you want to sing, the goal should be the same- strengthen and develop the singing voice to your fullest potential.

Singers from all styles have studied with me; including pop, gospel, country, rock, hard rock, and of course, heavy metal. I consider myself more of a "voice strengthening specialist." Although I spend a lot of time on style with my students, my forte' is helping eliminate poor vocal habits and problems that most singers, including amateur, professional, and touring musicians, have to contend with. I teach singers how to strengthen their instrument and increase their range, power, stamina, and quality of their voices. This book contains the exact same principles that I teach to all of my students, including rock stars. Just remember, technique is technique, regardless of whether you are a beginner or a seasoned professional.

Everyone wants a quick fix. There is no such thing. You are going to have to work for it. I've had new students come to me for one lesson and expect to walk away a superstar. It doesn't work that way. Anyone who tells you that they can dramatically transform your voice in one lesson is only in it for the money! Although I've seen amazing changes in singer's voices, it's all about the work!

Although there's no quick fix, I've decided to add a new chapter, entitled, Advanced Techniques, which contains some of the best tips, tricks, and tactics, for voice strengthening and improvement, that I have learned from professional singers, world renowned voice coaches, voice doctors, scientists, and my own personal experiences. I have also included over eighty new Useful Tips throughout the pages of this book, just for your benefit.

I have learned a lot since writing *Raise Your Voice*, and the conception of *The Voice Connection*. So, it's only right that I share my findings with my fans. I hope you enjoy this edition better than the first!

## Users Review

### From reader reviews:

#### **Daria Gertz:**

The event that you get from *Raise Your Voice* will be the more deep you searching the information that hide within the words the more you get thinking about reading it. It doesn't mean that this book is hard to comprehend but *Raise Your Voice* giving you joy feeling of reading.
