### **Treating NVLD in Children: Professional Collaborations for Positive Outcomes** From Brand: Springer

Children with nonverbal learning disabilities (NVLD) have needs that can take many forms and may, over time, require consultation and collaboration with professionals from several fields. Given that multiple specialists may be involved in working with children with NVLD – as well as the array of treatment variables – even seasoned practitioners may find themselves in confusing situations.

*Treating NVLD in Children* takes a developmental view of how the problems and needs of young people with nonverbal learning disabilities evolve and offers a concise guide for professionals who are likely to contribute to treatment. Expert practitioners across specialties in psychology, education, and rehabilitative therapy explain their roles in treatment, the decisions they are called on to make, and their interactions with other professionals. Collaborative interventions and teamwork are emphasized, as are transitions to higher learning, employment, and the adult world.

Among the book's key features are:

- A new four-subtype model of NVLD, with supporting research.
- A brief guide to assessment, transmitting results, and treatment planning.
- Chapters detailing the work of psychologists, therapists, coaches, and others in helping children with NVLD.
- Material specific to improving reading, writing, and mathematics.
- Overview of issues in emotional competency and independent living.
- An instructive personal account of growing up with NVLD.

*Treating NVLD in Children: Professional Collaborations for Positive Outcomes* is a key resource for a wide range of professionals working with children, including school and clinical child psychologists; educational psychologists and therapists; pediatricians; social workers and school counselors; speech and language therapists; child and adolescent psychiatrists; and marriage and family therapists.

## **Editorial Review**

### Review

From the reviews:

“The aim is to provide a multidisciplinary perspective on the treatment of nonverbal learning disabilities and to review the literature or lack thereof, as the case might be, in each area. The book is intended for a broad audience of clinical professionals and paraprofessionals who work with children with learning disorders. ... This book presents a wide variety of practical interventions for children with NVLD that could be tried in a clinic or school.” (Christopher J. Graver, Doody’s Book Reviews, August, 2013)

### From the Back Cover

Children with nonverbal learning disabilities (NVLD) have needs that can take many forms and may, over time, require consultation and collaboration with professionals from several fields. Given that multiple specialists may be involved in working with children with NVLD – as well as the array of treatment variables – even seasoned practitioners may find themselves in confusing situations.

*Treating NVLD in Children* takes a developmental view of how the problems and needs of young people with nonverbal learning disabilities evolve and offers a concise guide for professionals who are likely to contribute to treatment. Expert practitioners across specialties in psychology, education, and rehabilitative therapy explain their roles in treatment, the decisions they are called on to make, and their interactions with other professionals. Collaborative interventions and teamwork are emphasized, as are transitions to higher learning, employment, and the adult world.

Among the book’s key features are:

- A new four-subtype model of NVLD, with supporting research.

- An instructive personal account of growing up with NVLD.

*Treating NVLD in Children: Professional Collaborations for Positive Outcomes* is a key resource for a wide range of professionals working with children, including school and clinical child psychologists; educational psychologists and therapists; pediatricians; social workers and school counselors; speech and language therapists; child and adolescent psychiatrists; and marriage and family therapists.

### About the Author

**Jessica Broitman, Ph.D.**, (Co-editor) is the co-author of *Nonverbal Learning Disabilities in Children: Bridging the Gap Between Science and Practice* (2011). She is the President emeritus of the San Francisco Psychotherapy Research Group and Executive Director of its Clinic and Training Center. She frequently

lectures on Weiss's Control Mastery Theory worldwide. Currently a psychoanalyst in private practice since 1980, she has worked with families who have learning-disabled children for more than 10 years. She is currently involved in several research projects concerning the treatment and understanding of NVLD and has a special interest in helping professionals and families understand and treat this disorder. She is available for consultations and can be reached at: drjess@comcast.net.

**John M. Davis, Ph.D.,** (Co-editor) is the co-author of *Nonverbal Learning Disabilities in Children: Bridging the Gap Between Science and Practice* (2011). He is currently a Professor at California State University, East Bay, and Chair of the Educational Psychology Department, where he teaches and supervises. He received his Ph.D. from the U.C. Berkeley School Psychology program and did clinical postdoctoral studies to become a licensed psychologist. He has a special interest in learning and developmental disorders having been the director of a school and clinic for students with learning disabilities for 13 years, which provided diagnostic and intervention services. His current clinical work is primarily with children and adults with learning disorders. His writing and research interests include articles and book chapters in the areas of mental health consultation, suicide/crisis intervention, and learning disorders. He is available for consultation and evaluations can be reached at: jack.davis@csueastbay.edu.
