Editorial Review

Review

Named CHOICE Outstanding Title for 2012

“There are some really nice touches in this book. It is well written. The cases are accessible and relevant. The tables, lists, and some of the figures lucidly present taxonomies and provide chronological information on important topics.” (*International Journal of Communication*, 1 August 2012)

“Summing Up: Highly recommended. All readership levels. (*Choice*, 1 August 2012)

Review

“Digital Universe takes the reader into the lives and labs of the pioneers of communication technology, helping us understand the struggles, unexpected successes & failures, and the connections among technologies. This book provides one of the richest sets of technology histories that have been compiled into a single volume.

- *August Grant, University of South Carolina*

“In his ground-breaking new book, Peter B. Seel humanizes the story of telecommunication technology and its consequences. Providing a global perspective, Digital Universe thoughtfully examines the social impact of information and communication technologies from YouTube to augmented reality.”

- *John V. Pavlik, Rutgers University*

From the Back Cover

Digital Universe traces the evolution of digital information and communication tools used worldwide, from Morse’s telegraph to the emergence of mobile phones as personal computers, and their seismic effects on society. Critical perspectives of the diffusion of these technologies are explored, including the “dark side” of the Internet; privacy, piracy, censorship and the digital divide, as well as the advent of online games, and virtual and augmented realities.

This illuminating text introduces readers to important inventors, scientists, artists, and critics, offering a unique blend of technology, its socio-cultural effects, its history, and the human face of invention and criticism. This is more than a how-to book, it is an empowering tour of the digital universe offering critical observations and new perspectives on human communication and intelligence.

Users Review

From reader reviews:

Angela Drew:

As people who live in the actual modest era should be update about what going on or info even knowledge to

make these individuals keep up with the era that is always change and advance. Some of you maybe may update themselves by examining books.
