How To Keep Your Man, And Be His 'One And Only' - Successful Wife's Manual By Cathy Pearson

To understand how you are going to do your best in a relationship with a man, you must first understand what they are looking for in a woman. This seems to be an underlying problem with most individuals who get married, and the changes that often occur.

What a man is seeking in a woman in the earlier stage of their relationship, is usually very different from what is it for him in the long- term relationship. In the beginning men are motivated by the physical appearance of women, the way that they smile, and now bubbly their personality is.

They are attracted also by the way that a woman makes them feel, by complements that she gives him, and how she makes him feel better about himself.

Most men are insecure, and the more bravado they show, the more likely it is that they are not confident in a relationship. The more love that you show them, the sooner they will put down the shields that they have around them, and allow you to get to know them.

In this book you will learn the things that a man is looking for in a woman, and believe it or not, it's not just about breast size, how they look in a bikini, and how great they are in bed.
