In describing the organic growth of the liturgy, its shaping and distortion, Baumstark's reach extends from India to Ireland, Moscow to Axum, Carthage to Xi 'an. He discusses the influences of language, literature, doctrine, piety, politics, and culture. While his audacity can be breathtaking and his hypotheses grandiose, his approach is nevertheless stimulating. In this annotated edition, Fritz West provides the first English translation of this work by Anton Baumstark.

Editorial Review

Review

Fritz West, himself a methodological master of comparative liturgical study, has provided all of us with a great service in the publication of his excellent translation of Anton Baumstark's work. Together with Baumstark's classic Comparative Liturgy, which set the methodological agenda for most of contemporary historical-liturgical study, English scholars and students now have another significant Baumstark work on method at their disposal. Not to be overlooked are the fine contextual introduction by West and the preface by the great Eastern liturgiologist in the Baumstark school, Fr. Robert Taft, SJ. This book demonstrates beyond a shadow of a doubt that Baumstark's foundational methods of Liturgiewissenschaft, also known as 'comparative liturgy,' have a bright future indeed if we are to say anything at all about the history of liturgy. Thank you for doing this, Fritz.

Anton Baumstark is a monumental figure of liturgical scholarship of the twentieth century. This English translation by Fritz West of [On the Historical Development of the Liturgy] ... proves that he still demands serious attention.... West has rendered Baumstark's difficult and infelicitous German writing style into readable and, in many cases, elegant English prose. West, an ordained minister of the United Church of Christ, makes his own extraordinary contribution to liturgical research in this translation and annotation of Baumstark's early work. He is to be congratulated for his accomplishment.
