Practical Problems in Math for Automotive Technicians (Delmar's Practical Problems in Mathematics Series) By Larry Sformo, Todd Sformo, George Moore

Comprehensive and easy-to use, this updated edition covers every type of practical math problem that automotive technicians will face on the job. The subject matter is organized in a knowledge-building format that progresses from the basics of whole number operations into percentages, linear measurements, ratios, and the use of more complex formulas. Complete coverage of fundamentals, as well as more advanced computations make this book suitable for both beginning and advanced technicians. With a special section on graphs, scales, test meters, estimation, and invoices used in the workplace, this book is tailor-made for any automotive course of study!

Editorial Review

Review

Whole Numbers. Common Fractions. Decimal Fractions. Percent and Percentage. Measurement. Ratio and Proportion. Powers and Roots. Formulas. Graphs. Invoices.

About the Author

Larry Sformo is a retired teacher and principal who has taught mathematics and science from K-12 for over thirty years. He earned his B.A and M.A degrees and Certificate for Advanced Study from the State University of New York at Brockport. He is an adjunct instructor in education at Medaille College in Buffalo, New York.

Todd Sformo is currently a PhD student at the University of Alaska Fairbanks. He earned his B.A from John Carroll University, an M.A from the State University of New York at Buffalo, an M.F.A and an M.S from the University of Alaska Fairbanks.

George Moore is an experienced automotive technician and taught in all areas of automotive technology at Aims Community College in Greeley, Colorado, for twenty years. An expert in the field, Mr. Moore has earned the titles of Certified Master Automotive Technician from the National Institute for Automotive Service Excellence. Now retired, he devotes his time to automotive consultant service, writing and teaching emissions classes for the Colorado Department of Health.

Users Review

From reader reviews:

Kristen Self:

Book is actually written, printed, or highlighted for everything. You can realize everything you want by a guide. Book has a different type. As we know that book is important point to bring us around the world. Next to that you can your reading proficiency was fluently. A book Practical Problems in Math for Automotive Technicians (Delmar's Practical Problems in Mathematics Series) will make you to possibly be smarter. You can feel far more confidence if you can know about everything. But some of you think that will open or reading a new book make you bored. It isn't make you fun. Why they are often thought like that? Have you looking for best book or appropriate book with you?

Aimee Nguyen:

Now a day individuals who Living in the era wherever everything reachable by match the internet and the resources inside it can be true or not call for people to be aware of each info they get. How a lot more to be smart in getting any information nowadays? Of course the correct answer is reading a book. Examining a book can help persons out of this uncertainty Information specially this Practical Problems in Math for Automotive Technicians (Delmar's Practical Problems in Mathematics Series) book because this book offers you rich information and knowledge. Of course the data in this book hundred per-cent guarantees there is no doubt in it you know.

Barbara Barnes:

This book untitled Practical Problems in Math for Automotive Technicians (Delmar's Practical Problems in Mathematics Series) to be one of several books in which best seller in this year, that is because when you read this book you can get a lot of benefit on it. You will easily to buy this particular book in the book store or you can order it by means of online. The publisher of this book sells the e-book too. It makes you quickly to read this book, as you can read this book in your Smart phone. So there is no reason for your requirements to past this guide from your list.

Larry Valadez:

Reading a publication tends to be new life style in this particular era globalization. With studying you can get a lot of information that can give you benefit in your life. Using book everyone in this world can easily share their idea. Ebooks can also inspire a lot of people. Plenty of author can inspire their reader with their story or even their experience. Not only the storyline that share in the books. But also they write about the ability about something that you need example. How to get the good score toefl, or how to teach your children, there are many kinds of book which exist now. The authors on earth always try to improve their talent in writing, they also doing some analysis before they write to their book. One of them is this Practical Problems in Math for Automotive Technicians (Delmar's Practical Problems in Mathematics Series).
