The Vodou Quantum Leap: Alternate Realities, Power and Mysticism By Reginald Crosley

There's an old saying that truth is stranger than fiction. As scientists dive deeper into the very nature of the universe, the truth becomes so bizarre as to be almost inconceivable?multiple universes, parallel dimensions, dark matter, wormholes . . . Wouldn't it be amazing if there were already a map to these discoveries?

There is such a map, and it's found deep within the Afro-Caribbean religious system commonly called Vodou. Now you can learn how to traverse these dimensions, contact spiritual entities, and incorporate the tenets of Vodou into your own spiritual path by using Dr. Reginald Crosley's *The Vodou Quantum Leap*.

Dr. Crosley, a physician of Internal Medicine and Nephrology, is familiar with both the scientific and spiritual world. He was raised with Vodou and has studied the new sciences for years. Using his vast knowledge of sciences, religion and spirituality, he has written a book that will open your mind and change your life.

Learn the powerful secrets of direct communication with the Loa (gods) which is commonly called "possession" or "channeling." This ancient practice has been studied extensively, and this book presents techniques that can allow you to safely experience this ecstatic reality.

Dr. Crosley examines historic beliefs in an afterlife and how they differ from culture to culture. Then he explains the Vodou interpretation: there are two souls! One, the *semido*, "retains hunger for food, drink, sex, music, and dance." That's why practitioners of Vodou provide food, drink and other comforts in the tomb. The second soul or *selido*, does not return to visit the world of the living. You'll also learn the secrets of the mysterious *zin*, a jar that holds hair and fingernail parings. These are a link to the *semido*. From time to time a fire ritual is held to revivify the hair and nail clippings.

Discover the bizarre truth about our universe when you take *The Vodou Quantum Leap*.

Editorial Review

From [Booklist](#)

Crosley's fascinating exploration of the nexus of science and spirituality is a book in the tradition of Fritjof Capra's *Tao of Physics*. Crosley, a Caribbean doctor, connects quantum physics with *vodou* practice rather than, like Capra, Eastern mysticism. *Vodou*, the religion of Haiti, with its complex combination of indigenous and African spirituality, is gaining greater prominence today in the U.S. as it comes out from under the primitivist cloak Hollywood had cast upon it. It is, in fact, a complex religion whose worldview is quite compatible with the new physics. Moving between such scientific categories as chaos theory and quantum mechanics on the one hand, and the alternative realities of *vodou* on the other, Crosley grippingly depicts an important, often misunderstood spiritual tradition. *Patricia Monaghan*

From the Publisher

Llewellyn was one of the first companies to publish accurate books on Wicca and modern Witchcraft. I truly am grateful that we were able to open this religion to so many seekers.

Now we are able to bring to you *The Vodou Quantum Leap* by Reginald Crosley, M.D. This book makes clear exactly what the religion of Vodou really is and how it relates to other, non-traditional religions. It shows how the inner secrets of Vodou can actually help explain recent scientific discoveries into the very nature of the universe.

Dr. Crosley is a scholar of comparative religions and science. He writes clearly, so you can understand the intricacies of the latest scientific discoveries and the complexities of Vodou. You will see how these seeming opposites actually verify and clarify each other.

You will also learn that Vodou is as sophisticated and spiritual as any other religion or spiritual system, but also as down to earth as a dance or party. You will see why Vodou is a growing religion, helping thousands of people develop on their spiritual paths.

Covered in this book are the three basic constituents of the human being, the extra soul of the family or clan and another soul that can only be acquired through an initiation. You will learn that although hypnosis does not cause possession during the Vodou ritual, the key to understanding possession comes from the works of the earlier Mesmer. You'll even learn about the secrets of Black Magic as performed by some Vodouists.

Can the secrets of Vodou reveal what happened to the crew of the *Eldridge*, part of the famous Philadelphia Experiment that went so wrong? You'll find out here, along with so much more.

I really urge you to make this book part of your reading.
